American Dental Association (ADA) Current Dental Terminology code sets offer access to all dental codes in one place. Drug code annotations identify brand-name drugs as well as drugs that appear on the National Drug Class (NDC) directory and other Food and Drug Administration (FDA) approved drugs. Quantity feature highlights units of service allowable per patient, per day, as listed in the Medically Unlikely Edits (MUEs) for enhanced accuracy on claims. Durable medical equipment, prosthetics, orthotics, and supplies (DMEPOS) indicators clearly identify supplies to report to durable medical third-party payers. Ambulatory Surgery Center (ASC) payment and status indicators show which codes are payable in the Hospital Outpatient Prospective Payment System. Information on coverage provides alerts when codes have special instructions, are not valid or covered by Medicare, or may be paid at the carriers discretion. Jurisdiction symbols show the appropriate contractor to be billed for suppliers submitting claims to Medicare contractors, Part B carriers, and Medicare administrative contractors submitting for DMEPOS services provided. Age/Sex edits identify codes for use only with patients of a specific age or sex. Physician Quality Reporting System icon identifies codes that are specific to PQRS measures.
